Dear Sir:

INFORMATION DISCLOSURE STATEMENT

Pursuant to 37 C.F.R. § 1.97 or § 1.98, Applicant in the above-identified application submits this Information Disclosure Statement together with the enclosed form PTO-1449 in order to bring to the Examiner's attention references of which Applicant is aware and which may have some bearing on the examination of this case. Because this application was filed after June 30, 2003, copies of U.S. prior art documents are not enclosed.

This Information Disclosure Statement is not to be construed as a representation that a search has been conducted by Applicant or that no other material information exists. See 37 C.F.R. § 1.97(b). Furthermore, statements describing a particular reference indicate only Applicant's understanding of the teachings of that reference, and are not a representation that the reference has been reviewed completely or that no other pertinent or material information is contained in that reference.

Applicant submittal of these references or discussion thereof in this IDS or the Background of the specification is not to be construed as an admission that these references are prior art or material to the patentability of any pending claim.

After U.S. Patent 6,614,195 issued in September 2003, the assignee of the present invention inquired whether PG Drives Technology, Ltd. (formerly Penny & Giles Drives Technology, Ltd.), may have an interest in licensing U.S. Patent 6,614,195. In or around December, 2003, PG Drives Technology, Ltd., declined to enter a license agreement and

suggested that claims of U.S. Patent 6,614,195 were invalid based on PG Drive Technology, Ltd.'s prior use of "automatic end-stop" schemes for powered actuators prior to May 9, 2001. PG Drive Technology, Ltd. forwarded the attached documents which purportedly disclose information relating to the patentability of U.S. Patent 6,614,195. Applicant disagrees with PG Drive Technology, Ltd.'s contention of invalidity regarding U.S. Patent 6,614,195. Applicant denies that these documents provide a basis of invalidity of U.S. Patent 6,614,195 or support rejections of unpatentability in the present reissue application.

As this Information Disclosure Statement is being filed after receipt of the first Office Action, a \$180.00 fee is required. The Commissioner for Patents is authorized to deduct said fee from Fulbright & Jaworski L.L.P. Deposit Account No. 50/1212 (24,954-09RE).

Please direct any questions or comments regarding this application or Information Disclosure Statement to John F. Klos (612) 321-2806.

Dated this March 14, 2005.

Respectfully submitted,

TENNANT COMPANY,
by its attorneys,

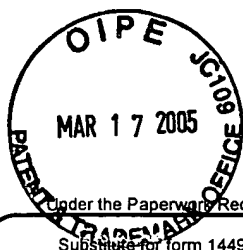

John F. Klos, Reg. No. 37,162
